

Home Learning Ideas (Autumn 2)

Home Learning is encouraged so that your child can share with you some of the skills learnt in school. It can also help your child to become more involved in their learning and become more independent with their thinking. If you would like some ideas please use the list below, but these are merely suggestions, and it would be great to see what the children think of themselves. Learning will be shared in the classroom and displayed as soon as possible.

Possible Ideas

- Build yourself your very own Rain stick, Sensory jar/bottle.
- Make a collage of different types of textures.
- Design and build your very own musical instrument.
- Have a blindfolded taste adventure with a variety of known and unknown foods. Can you write some descriptive sentences to describe the foods you have tasted?
- Make a pinhole camera out of a cardboard box.
- Create a painting using different brush sizes or have a go at making your own paint brushes with objects found around and outside your home.
- Have some fun mixing primary colours, can you create your own colour wheel?

We can't wait to see what you produce this half term!
