

Home Learning Ideas (Spring 1)

Home Learning is encouraged so that your child can share with you some of the skills learnt in school. It can also help your child to become more involved in their learning and become more independent with their thinking. If you would like some ideas please use the list below, but these are merely suggestions, and it would be great to see what the children think of themselves. Learning will be shared in the classroom and displayed as soon as possible.

Possible Ideas

- Create a fact-file about a famous structure in the UK.
- Junk modelling. Use your imagination to construct a new and exciting structure.
- Create a rain gauge to measure the rainfall near your home.
- Create a weather forecast and share this with us, or even film yourself as a weather reporter.
- Go on a scavenger hunt to identify some human geographic features in Corfe Mullen.
- Write your own algorithm for something you do at home i.e. making a sandwich, getting ready for school. After, test your algorithm to see if it works!

We can't wait to see what you produce this half term!
