

# Home Learning Ideas

## Year 3: Spring 1

Home Learning is encouraged so that your child can share with you some of the knowledge and skills learnt in school as well as allow them to learn more and follow their own areas of interest. It can also help your child to become more involved in the learning and become more independent with their thinking. If you would like some ideas please use the list below, but these are merely suggestions, and it would be great to see what the children think of themselves.

We can't wait to see what the children produce this half term...

- Have a go at growing plants at home- think about what you need to do to make sure they grow! You could then make a growing diary
- Dissect a flower and see what you find. Can you label the different parts?
- Look at maps of the United Kingdom. Can you label any famous places?
- Research monuments that you can find in the United Kingdom and create a fact file about them
- Create a map of Dorset and locate different places you have visited
- Research what food is grown in the United Kingdom and how it is grown
- Grow your own fruits/vegetables at home- what do you need to do to keep them healthy?
- Cook a meal using local, seasonal ingredients and write up the recipe
- Create an Iron Man type character and label his features
