

Home Learning Ideas (Spring 2)

Home Learning is encouraged so that your child can share with you some of the skills learnt in school. It can also help your child to become more involved in their learning and become more independent with their thinking. If you would like some ideas please use the list below, but these are merely suggestions, and it would be great to see what the children think of themselves. Learning will be shared in the classroom and displayed as soon as possible.

Possible Ideas

- Research and create your own family tree.
- Create a fact-file about a member of the Royal Family
- Practise your sewing by making a book mark using a variety of materials.
- Go on a scavenger hunt around your home and find as many materials as you can.
- Practise your programming by having a member of your family pretend to be a Bee bot Robot.
- Research what materials are best to make your own aeroplane, boat, or container.

We can't wait to see what you produce this half term!
